

Subject: [spam] Special Permit #2021-0123 for a 12-Unit Multifamily Housing in PKSQ and APA - Salisbury Housing Committee - 11 Holley Street
From: Mary Oppenheimer <maryclose@me.com>
Date: 3/6/2021, 7:09 PM
To: Conroy Abby <aconroy@salisburyct.us>

There is a large variety of architectural styles and periods in the neighborhood of the proposed Holley Place building. The new design will fit in well and be a handsome addition.
Sincerely,
Mary Oppenheimer

There are many buildings in the Holley Block neighborhood that are NOT charming, federal style, symmetrical structures with traditional detailing and proportions. Here are some examples.

Side of Joe Shaeffer's building facing Holley Block

Lakeville Interiors - the ugliest building in the area and right next to Holley Block

Old Firehouse

Opposite Herrington's

To the right of Herrington's towards Rte. 44

Across from Herrington's

Riiska office and home

Building on Rte 41 near intersection with 44

To support the fact that large 3 story buildings are common in the area, this is the front of the building on 27 Elm Street.
