To Salisbury Planning and Zoning Commissioners,
During last evening's meeting, I was stunned to learn that a paragraph from a letter I submitted to your commission November 5, 2020, was used in Attorney Casagrande's presentation.

I would like to set the record straight, please.

The purpose of my November letter was to provide some additional information regarding the significance of the Lakeville Historic Village to your commission as I was very concerned about the impact the proposed project design would have on it.

In the months since that letter was sent, much has changed, most especially the design of the project. I believe the new design is far more attractive and compatible with its neighbors and I am no longer opposed to the project, assuming any outstanding issues are resolved to the commission's satisfaction.

I was not asked for permission to use the excerpt from my November 5th letter and I would not have given it had I been asked.

Very truly yours,

Sarah Morrison
