3 **Section 1**
4 **Title, Authority, and Statement of Purpose**

- 5 1.1 The inland wetlands and watercourses of the State of Connecticut are an indispensable and
6 irreplaceable but fragile natural resource with which the citizens of the state have been endowed.
7 The wetlands and watercourses are an interrelated web of nature essential to an adequate supply
8 of surface and underground water; to hydrological stability and control of flooding and erosion; to
9 the recharging and purification of groundwater; and to the existence of many forms of animal,
10 aquatic and plant life. Many inland wetlands and watercourses have been destroyed or are in
11 danger of destruction because of unregulated use by reason of the deposition, filling or removal of
12 material, the diversion or obstruction of water flow, the erection of structures and other uses, all
13 of which have despoiled, polluted and eliminated wetlands and watercourses. Such unregulated
14 activity has had, and will continue to have, a significant, adverse impact on the environment and
15 ecology of the state of Connecticut and has and will continue to imperil the quality of the environment
16 thus adversely affecting the ecological, scenic, historic and recreational values and benefits of the state
17 for its citizens now and forever more. The preservation and protection of the wetlands and
18 watercourses from random, unnecessary, undesirable and unregulated uses, disturbance or
19 destruction is in the public interest and is essential to the health, welfare and safety of the citizens
20 of the state. It is, therefore, the purpose of these regulations to protect the citizens of the state by
21 making provisions for the protection, preservation, maintenance and use of the inland wetlands and
22 watercourses by minimizing their disturbance and pollution; maintaining and improving water quality
23 in accordance with the highest standards set by federal, state or local authority; preventing damage
24 from erosion, turbidity or siltation; preventing loss of fish and other beneficial aquatic organisms,
25 wildlife and vegetation and the destruction of the natural habitats thereof; deterring and inhibiting the
26 danger of flood and pollution; protecting the quality of wetlands and watercourses for their
27 conservation, economic, aesthetic, recreational and other public and private uses and values; and
28 protecting the state's potable fresh water supplies from the dangers of drought, overdraft, pollution,
29 misuse and mismanagement by providing an orderly process to balance the need for the economic
30 growth of the state and the use of its land with the need to protect its environment and ecology
31 in order to forever guarantee to the people of the state, the safety of such natural resources for their
32 benefit and enjoyment and for the benefit and enjoyment of generations yet unborn.
33
- 34 1.2 These regulations shall be known as the "Inland Wetlands and Watercourses Commission
35 Regulations of the Town of Salisbury."
36
- 37 1.3 The Conservation Commission of the Town of Salisbury was established in accordance with an
38 ordinance adopted as Ordinance 30 in 1972 and shall implement the purposes and provisions of
39 these regulations and the Inland Wetlands and Watercourses Act in the Town of Salisbury.
40
- 41 1.4 The Inland Wetlands and Watercourses Commission was established in accordance with the Town of
42 Salisbury Ordinance 125, effective October 28, 2020, assuming and implanting the purposes and
43 provisions of these regulations and the Inland Wetlands and Watercourses Act.
44
- 45 1.5 These regulations have been adopted and may be amended, from time to time, in accordance with
46 the provisions of the Inland Wetlands and Watercourses Act and these regulations.
47
- 48 1.6 The Agency shall enforce the Inland Wetlands and Watercourses Act and shall issue, issue with terms,
49 conditions, limitations or modifications, or deny permits for all regulated activities in the Town of
50 Salisbury pursuant to sections 22a-36 to 22a-45, inclusive, of the Connecticut General Statutes, as
51 amended.
52

- 53 1.7 The Inland Wetland and Watercourses Commission of the Town of Salisbury finds that the Town's
54 wetlands and watercourses are exceptional and valuable resources that require diligent stewardship for
55 the general health and welfare of the community and as unique resources that benefit the citizens of the
56 entire State.
57
- 58 a. Salisbury hosts a rich diversity of wetlands and watercourses that are un-fragmented and
59 interconnected. Large portions of the State have lost this connectivity and ecological resiliency.
60 The importance and value of Salisbury's wetland and watercourses will increase over time as more
61 of the State's resources become fragmented by urbanization.
62
 - 63 b. Salisbury has the highest elevations within the State, in excess of 2,000 feet above sea level. As the
64 effects of climate change increase, scientific modeling has demonstrated that wetlands and
65 watercourses originating at high elevations will be the last refuges for certain cold-water limited
66 aquatic species within the State.
67
 - 68 c. Six large lakes lie within Salisbury's boundaries. Two are at high elevations atop the Taconic
69 Uplift (Riga Lake, 1750 feet above sea level and South Pond, 1715 feet above sea level); four lie
70 on the valley floor at slightly over 700 feet above sea level. Lakeville Lake, the deepest natural lake
71 in Connecticut (106 feet at its deepest point) is fed both by springs and surface run-off. The
72 impounded Twin Lakes in the northeastern section of Town are the headwaters of Schenob Brook,
73 a nationally recognized watershed of high ecological importance. These three lakes and the fourth
74 valley floor lake (Long Pond) are important recreational resources for the Town and the State.
75 They are among the most sought-after residential areas and are under increasing threat from
76 overdevelopment.
77
 - 78 d. Salisbury's rich diversity of wetlands and watercourses serve as habitat for robust populations of
79 many endangered, threatened, and special concern wetland-dependent plant and wildlife species.
80 Habitats such as fens, high-gradient coldwater streams, and vernal pools are among the varied
81 habitats in Salisbury that contain many of these species and merit enhanced protection. Additional
82 critical wetland habitats as defined by Connecticut DEEP such as Acidic Red/Black Spruce Basin
83 Swamp, Poor Fen, Rich Fen, Circumneutral Spring Fen, Floodplain Forest are also found in
84 Salisbury. These areas are rare, unique, and specialized wildlife habitats recognized by the state of
85 Connecticut as being of conservation interest.
86
 - 87 f. The Housatonic River, which is a Federally designated Wild and Scenic River, is the eastern
88 boundary of Salisbury. The Salmon Kill and Moore Brook are two major tributaries to the
89 Housatonic River that originate in Salisbury. The Salmon Kill Valley and its broad floodplains are
90 an iconic pastoral landscape that has remained relatively unchanged since the early 20th century.
91
 - 92 g. Altered precipitation patterns caused by climate change place new stresses upon wetland and
93 watercourses. Increased flooding threatens both human and natural infrastructure. Comprehensive
94 review of activities occurring in wetlands and the upland review areas adjacent to wetlands and
95 watercourses is an important climate change resiliency strategy.

2.1 As used in these regulations:

"Act" means the Inland Wetlands and Watercourses Act, sections 22a-36 through 22a-45, inclusive, of the Connecticut General Statutes, as amended.

"Agency" means the Inland Wetlands and Watercourses Commission of the Town of Salisbury.

"Agent Approval" - An inland wetlands agency may delegate to its duly authorized agent the authority to approve or extend an activity that is not located in a wetland or watercourse when such agent finds that the conduct of such activity would result in no greater than a minimal impact on any wetland or watercourse.

"Bogs" are watercourses distinguished by evergreen trees and shrubs underlain by peat deposits, poor or very poor drainage, and highly acidic conditions.

"Clearing" means the removal of all vegetation down to a two-inch diameter at breast height

"Clear-cutting" means the harvest of timber in a fashion which removes all trees down to a two-inch diameter at breast height.

"Commissioner of Environmental Protection" means the commissioner of the State of Connecticut Department of Environmental Protection.

"Continual flow" means a flow of water, which persists for an extended period of time; this flow may be interrupted during periods of drought or during the low flow period of the annual hydrological cycle, June through September, but it recurs in prolonged succession.

"Cumulative Impact" is the impact on the environment that results from the compounding of incremental impact of an activity or action when added to other past, present, and reasonably foreseeable future actions.

"Deposit" includes, but shall not be limited to fill, grade, dump, place, discharge or emit.

"Discharge" means emission of any water, substance, or material into waters of the state whether or not such substance causes pollution.

"Essential to the farming operation" means that the proposed activity is necessary and indispensable to sustain farming activities on the farm.

"Farming" shall be consistent with the definition as noted in section 1-1(q) of the Connecticut General Statutes. (See Appendix A)

"Feasible" means able to be constructed or implemented consistent with sound engineering principles.

"Grubbing" means digging to remove or uproot trees or stumps.

"Headwaters" are composed of numerous small tributaries and groundwater seepages which coalesce into larger tributaries and are the source of all rivers and streams.

Commented [AC2]: 22a-1b(c) the environmental consequences of the proposed action including...cumulative impact

Commented [AC3R2]: EPA: May 1999 the assessment of cumulative impacts - National Environmental Policy Act for actions of federal agencies. The concept takes into account all disturbances since cumulative impacts result in the compounding of effect. Compounding = good word.

149 “Jurisdictional Ruling” is a ruling made by the Agency when determining if an activity is exempt from
150 permitting on the basis of as of right or nonregulated use in accordance with Section 4 of these
151 Regulations or on the basis that the proposed activity is not regulated.
152

153 “License” means the whole or any part of any permit, certificate of approval or similar form of
154 permission, which may be required of any person by the provisions of sections 22a-36 to 22a-45,
155 inclusive.
156

157 “Management practice” means a practice, procedure, activity, structure or facility designed to
158 prevent or minimize pollution or other environmental damage or to maintain or enhance existing
159 environmental quality. Such management practices include, but are not limited to: erosion and
160 sedimentation controls; restrictions on land use or development; construction setbacks from
161 wetlands or watercourses; proper disposal of waste materials; procedures for equipment
162 maintenance to prevent fuel spillage; construction methods to prevent flooding or disturbance of
163 wetlands and watercourses; procedures for maintaining continuous stream flows; confining
164 construction that must take place in watercourses to times when water flows are low and fish and
165 wildlife will not be adversely affected.
166

167 “Marshes” are watercourses that are distinguished by the absence of trees and shrubs and the
168 dominance of soft-stemmed herbaceous plants. The water table in marshes is at or above the
169 ground surface throughout the year and areas of open water six inches or more in depth are
170 common, but seasonal water table fluctuations are encountered.
171

172 “Municipality” means the Town of Salisbury.
173

174 “Nurseries” means places where plants are grown for sale, transplanting, or experimentation.
175

176 “Ordinary high-water mark (watercourse) means the mark on the land caused by the presence and
177 action of flowing water (including sediments and debris) which presence and action is so common,
178 usual and sustained in all ordinary years so as to mark upon the land a distinction between the abutting
179 upland and the watercourse.
180

181 “Ordinary high-water mark (lake, pond, vernal pool) means the line along the shore providing evidence
182 of the water level based on vegetative characteristics such as the presence of aquatic emergent or
183 floating vegetation and/or physical characteristics such as a discernable natural line impressed on a
184 bank, scouring, shelving, staining, or the presence of sediments or debris.
185

186 “Permit” see license
187 “Permittee” means the person to whom a license has been issued.
188

189 “Person” means any person, firm, partnership, association, corporation, limited liability company,
190 company, organization or legal entity of any kind, including municipal corporations, governmental
191 agencies or subdivisions thereof.
192

193 “Pollution” means harmful thermal effect or the contamination or rendering unclean or impure of
194 any waters of the state by reason of any waste or other materials discharged or deposited therein
195 by any public or private sewer or otherwise so as directly or indirectly to come in contact with
196 any waters. This includes, but is not limited to, erosion and sedimentation resulting from any
197 filling, land clearing or excavation activity.
198

199 “Prudent” means economically and otherwise reasonable in light of the social benefits to be
200 derived from the proposed regulated activity provided cost may be considered in deciding what is

201 prudent and further provided a mere showing of expense will not necessarily mean an alternative
202 is imprudent.

203
204 "Regulated activity" (1) means any operation within or use of a wetland or watercourse or its
205 associated upland review area involving removal or deposition of material, or any obstruction,
206 construction, alteration or pollution, of such wetlands or watercourses, but shall not include the
207 specified activities in Section 22a-40 of the Connecticut General Statutes or Section 4 of the
208 Commission Regulations. The term "regulated activity" shall include, but is not limited to, any earth
209 moving, clearing, grubbing, filling, grading, paving, excavating, constructing, depositing, or removing
210 of material, and discharging of stormwater on the land, ~~or clear cutting of trees~~ within the following
211 upland review areas when those activities are likely to impact or affect wetlands or watercourses:

- 212
- 213 a. Within 150 feet measured horizontally from the boundary of wetlands or from the ordinary
214 high-water mark of any watercourse. The activities referenced in subsections b-e below are
215 excluded from subsection a.
 - 216
 - 217 b. Within 300 feet measured horizontally from the boundary of a fen.
 - 218
 - 219 c. Within 300 feet measured horizontally from the ordinary high-water mark of a high-gradient,
220 coldwater stream.
 - 221
 - 222 d. Within 300 feet measured horizontally from the ordinary high-water mark of a vernal pool.
 - 223
 - 224 e. Within 75 feet measured horizontally from the ordinary high-water mark of Lake
225 Wononskopomuc. Any active portion of any subsurface waste disposal system within 150 feet
226 of the ordinary high-water mark of these four lakes is deemed a regulated activity.
 - 227
 - 228 f. Within 75 feet measured horizontally from the ordinary high-water mark of Lake
229 Wononpakook. Any active portion of any subsurface waste disposal system within 150 feet of
230 the ordinary high-water mark of these four lakes is deemed a regulated activity.
 - 231
 - 232 g. Within 75 feet measured horizontally from the ordinary high-water mark of Lake
233 Washing. Any active portion of any subsurface waste disposal system within 150 feet of the
234 ordinary high-water mark of these four lakes is deemed a regulated activity.
 - 235
 - 236 h. Within 75 feet measured horizontally from the ordinary high-water mark of Lake Washinee.
237 Any active portion of any subsurface waste disposal system within 150 feet of the ordinary
238 high-water mark of these four lakes is deemed a regulated activity.
 - 239

240 (2) the agency may rule that any other activity located in a non-wetland or non-watercourse area is
241 likely to impact or affect wetlands or watercourses and is a regulated activity.

242
243 "Remove" includes, but shall not be limited to drain, excavate, mine, dig, dredge, suck, bulldoze,
244 dragline or blast.

245
246 "Rendering unclean or impure" means any alteration of the physical, chemical or biological
247 properties of any waters of the state, including, but not limited to, change in odor, color, turbidity
248 or taste.

249
250 "Significant impact" means any activity, including, but not limited to, the following activities
251 which may have a major effect:

252

253 1. Any activity involving deposition or removal of material which will or may have a
254 substantial effect on the wetland or watercourse or on wetlands or watercourses outside
255 the area for which the activity is proposed.
256

257 2. Any activity which substantially changes the natural channel or may inhibit the natural
258 dynamics of a watercourse system.
259

260 3. Any activity which substantially diminishes the natural capacity of an inland wetland or
261 watercourse to: support aquatic, plant or animal life and habitats; prevent flooding; supply
262 water; assimilate waste; facilitate drainage; provide recreation or open space; or perform other
263 functions.
264

265 4. Any activity which is likely to cause or has the potential to cause substantial turbidity,
266 siltation or sedimentation in a wetland or watercourse.
267

268 5. Any activity which causes substantial diminution of flow of a natural watercourse or
269 groundwater levels of the wetland or watercourse.
270

271 6. Any activity which is likely to cause or has the potential to cause pollution of a wetland
272 or watercourse.
273

274 7. Any activity which damages or destroys unique wetland or watercourse areas or such
275 areas having demonstrable scientific or educational value.
276

277 "Soil scientist" means an individual duly qualified in accordance with standards set by the federal
278 Office of Personnel Management.
279

280 "Swamps" are watercourses that are distinguished by the dominance of wetland trees and shrubs.
281

282 "Submerged lands" means those lands which are inundated by water on a seasonal or more
283 frequent basis.
284

285 "Town" means the Town of Salisbury.
286

287 "Upland Review Area" is a defined area of land outside of but adjacent to inland wetlands and
288 watercourses that may be necessary to provide protection from the adverse impacts of
289 various land uses. The Commission or its agent has the authority to review, but not necessarily prohibit,
290 activities in the upland review area.
291

292 "Waste" means sewage or any substance, liquid, gaseous, solid or radioactive, which may pollute
293 or tend to pollute any of the wetlands and watercourses of the Town.
294

295 "Watercourses" means rivers, streams, brooks, waterways, lakes, ponds, marshes, swamps, bogs, and
296 all other bodies of water, natural or artificial, vernal or intermittent, public or private, which are
297 contained within, flow through or border upon the Town or any portion thereof not regulated pursuant
298 to sections 22a-28 through 22a-35, inclusive, of the Connecticut General Statutes.
299

300 "Fen" includes:
301 1. Circumneutral Spring Fen - Naturally open wetlands occupying high pH groundwater
302 discharge sites; peat accumulation minimal. Subtypes include sedge, shrub thicket,
303 phragmites, woodland, and other/unique.
304

- 305 2. Rich Fen - Natural peatlands occupying topographically defined basins; influenced by
306 base-rich waters; on deep, poorly decomposed peats; restricted to the western marble
307 valleys. Subtypes include sedge, shrub thicket, dwarf shrub, woodland, phragmites,
308 and other/unique
309
- 310 3. Poor Fen - Natural peatlands (bogs) occupying topographically defined basins;
311 influenced by acidic ground water; on deep, poorly decomposed peats; dominated
312 primarily by ericaceous shrubs. Subtypes include dwarf shrub, shrub thicket, saturated
313 woodland, and other/unique
314

315 "High-Gradient Coldwater Streams" are headwaters usually originating from high elevation
316 wetlands. Occurring 800' above sea level, they receive not only surface water, but also large
317 amounts of subterranean seepage that break out at various fissures in the bedrock, adding cold
318 water to these streams as they plunge over steep cliffs and boulders.
319

Commented [AC4]: [Cold Water Stream Habitat Map \(ct.gov\)](#)

320 "Intermittent Watercourses" shall be delineated by a defined permanent channel and bank and
321 the occurrence of two or more of the following characteristics: (A) Evidence of scour or
322 deposits of recent alluvium or detritus, (B) the presence of standing or flowing water for a
323 duration longer than a particular storm incident, and (C) the presence of hydrophytic
324 vegetation.
325

326 "Vernal Pools" are seasonally inundated depressions that attain maximum depths in spring or
327 fall and lack permanent surface water connections with other wetlands or water bodies. Vernal
328 pools are determined by both the physical characteristics and the presence of indicator/obligate
329 species.
330

331 "Wetlands" means land, including submerged land as defined in this section, not regulated
332 pursuant to sections 22a-28 through 22a-35, inclusive, of the Connecticut General Statutes, which
333 consists of any of the soil types designated as poorly drained, very poorly drained, alluvial and
334 floodplain by the National Cooperative Soils Survey, as it may be amended from time to time, of
335 the Natural Resources Conservation Service of the U.S. Department of Agriculture (USDA). Such
336 areas may include filled, graded, or excavated sites which possess an aquic (saturated) soil moisture
337 regime as defined by the USDA Cooperative Soil Survey.
338

339 "Wetlands and Watercourses Buffer Area" is an area of undisturbed vegetation bordering a wetland or
340 watercourse either naturally occurring or planted as mitigation. The buffer may be composed of a
341 combination of trees, woody vegetation (shrubs, bushes, brush), and herbaceous vegetation

Section 3

Inventory of Inland Wetlands and Watercourses

- 3.1 The map of wetlands and watercourses entitled "Inland Wetlands and Watercourses Map, Salisbury, Connecticut" delineates the general location and boundaries of inland wetlands and the general location of watercourses. Copies of this map are available for inspection at the office of the Town Clerk or the Agency. In all cases, the precise location of wetlands and watercourses shall be determined by the actual character of the land, the distribution of wetland soil types and location of watercourses. Such determinations shall be made by field inspection and testing conducted by a soil scientist where soil determinations are required, or where watercourse determinations are required, by any qualified individual. The Agency may use aerial photography, remote sensing imagery, resource mapping, soils maps, site inspection observations or other information in determining the location of the boundaries of wetlands and watercourses
- 3.2 Any person may petition the Agency for an amendment to the map. All petitions for a map change shall be submitted in writing and shall include all relevant facts and circumstances which support the change. The petitioner shall bear the burden of proof regarding the proposed map amendment. Such proof may include, but not be limited to aerial photography, remote sensing imagery, resource mapping or other available information. The Agency may require such person to provide an accurate delineation of regulated areas in accordance with section 15 of these regulations.
- 3.3 The Agency shall maintain a current inventory of regulated areas within the town. The Agency may amend its map as more accurate information becomes available.
- 3.4 All map amendments are subject to the public hearing process outlined in section 15 of these regulations.

369
370
371
372

Section 4
Jurisdictional Rulings for
Permitted Uses as of Right & Nonregulated Uses

- 373 4.1 To carry out the purposes of this section, any person proposing a permitted operation and use or a
374 nonregulated operation and use shall, prior to commencement of such operation and use, notify the
375 Agency on a form provided by it, and provide the Agency with sufficient information to enable it to
376 properly determine that the proposed operation and use is a permitted or nonregulated use of a wetland
377 or watercourse. The Agency shall rule that the proposed operation and use or portion of it is a permitted
378 or nonregulated operation and use or that the proposed operation and use is a regulated activity, and a
379 permit is required.
380
- 381 4.2 The following operations and uses shall be permitted in inland wetlands and watercourses, as of
382 right:
383
- 384 a. grazing, farming, nurseries, gardening and harvesting of crops and farm ponds of three acres
385 or less essential to the farming operation, and activities conducted by, or under the authority
386 of, the Department of Environmental Protection for the purposes of wetland or watercourse
387 restoration or enhancement or mosquito control. The provisions of this subdivision shall not
388 be construed to include road construction or the erection of buildings not directly related to
389 the farming operation, relocation of watercourses with continual flow, filling or reclamation of
390 wetlands or watercourses with continual flow, clear cutting of timber except for the expansion
391 of agricultural crop land, the mining of top soil, peat, sand, gravel or similar material from
392 wetlands or watercourses for the purposes of sale;
393
 - 394 b. a residential home (i) for which a building permit has been issued or (ii) on a subdivision lot,
395 provided the permit has been issued or the subdivision has been approved by a municipal planning,
396 zoning or planning and zoning commission as of the effective date of promulgation of the
397 municipal regulations pursuant to subsection (b) of section 22a-42a, or as of July 1, 1974,
398 which ever is earlier, and further provided no residential home shall be permitted as of right
399 pursuant to this subdivision unless the permit was obtained on or before July 1, 1987;
400
 - 401 c. boat anchorage or mooring;
402
 - 403 d. uses incidental to the enjoyment and maintenance of residential property, such property
404 defined as equal to or smaller than the largest minimum residential lot site permitted
405 anywhere in the municipality provided that in any town where there are no zoning regulations
406 establishing minimum residential lot sites, the largest minimum lot site shall be two acres.
407 Such incidental uses shall include maintenance of existing structures and landscaping, but
408 shall not include removal or deposition of significant amounts of material from or onto a
409 wetland or watercourse, or diversion or alteration of a watercourse;
410
 - 411 e. Construction and operation, by water companies as defined by section 16-1 of the
412 Connecticut General Statutes or by municipal water supply systems as provided for in chapter 102
413 of the Connecticut General Statutes, of dams, reservoirs and other facilities necessary to the
414 impounding, storage and withdrawal of water in connection with public water supplies except
415 as provided in sections 22a-401 and 22a-403 of the Connecticut General Statutes and;
416
 - 417 f. Maintenance relating to any drainage pipe which existed before the effective date of any municipal
418 regulations adopted pursuant to section 22a-42a of the Connecticut General Statutes or July 1,
419 1974, whichever is earlier, provided such pipe is on property which is zoned as residential but
420 which does not contain hydrophytic vegetation. For purposes of this subdivision, "maintenance"

421 means the removal of accumulated leaves, soil, and other debris whether by hand or machine,
422 while the pipe remains in place.

423
424 g. Withdrawals of water for fire emergency purposes.

425
426 4.3 The following operations and uses shall be permitted, as nonregulated uses in wetlands and
427 watercourses, provided they do not disturb the natural and indigenous character of the wetland or
428 watercourse by removal or deposition of material, alteration or obstruction of water flow or
429 pollution of the wetland or watercourse:

430
431 a. conservation of soil, vegetation, water, fish, shellfish and wildlife; and

432
433 b. outdoor recreation including play and sporting areas, golf courses, field trials, nature study,
434 hiking, horseback riding, swimming, skin diving, camping, boating, water skiing, trapping,
435 hunting, fishing and shellfishing where otherwise legally permitted and regulated.

436
437 c. The installation of a dry hydrant by or under the authority of a municipal fire department,
438 provided such dry hydrant is only used for firefighting purposes and there is no alternative
439 access to a public water supply. For purposes of this section, "dry hydrant" means a non-
440 pressurized pipe system that: (A) is readily accessible to fire department apparatus from a
441 proximate public road, (B) provides for the withdrawal of water by suction to such fire
442 department apparatus, and (C) is permanently installed into an existing lake, pond or stream
443 that is a dependable source of water.

444
445 4.4 All activities in wetlands or watercourses involving filling, excavating, dredging, clear cutting,
446 clearing, or grading or any other alteration or use of a wetland or watercourse not specifically permitted
447 by this section and otherwise defined as a regulated activity by these regulations shall require a permit
448 from the Agency in accordance with section 6 of these regulations, or for certain regulated activities
449 located outside of wetlands and watercourses from the duly authorized agent in accordance with
450 section 12 of these regulations.

Section 5

Activities Regulated Exclusively by the Commissioner of Environmental Protection

- 5.1 The Commissioner of Environmental Protection shall have exclusive jurisdiction over regulated activities in or affecting wetlands or watercourses, undertaken by any department, agency or instrumentality of the State of Connecticut, except any local or regional board of education, pursuant to sections 22a-39 or 22a-45a of the Connecticut General Statutes.
- 5.2 The Commissioner of Environmental Protection shall have exclusive jurisdiction over tidal wetlands designated and regulated pursuant to sections 22a-28 through 22a-35 of the Connecticut General Statutes, as amended.
- 5.3 The Commissioner of Environmental Protection shall have exclusive jurisdiction over activities authorized under a dam repair or removal order issued by the Commissioner of Environmental Protection under section 22a-402 of the Connecticut General Statutes or a permit issued by the Commissioner of Environmental Protection under sections 22a-403 of the Connecticut General Statutes. Any person receiving such dam repair or removal order or permit shall not be required to obtain a permit from a municipal wetlands agency for any action necessary to comply with said dam order or to carry out the activities authorized by said permit.
- 5.4 The Commissioner of Environmental Protection shall have exclusive jurisdiction over the discharge of fill or dredged materials into the wetlands and watercourses of the state pursuant to section 401 of the Federal Clean Water Act, as amended, for activities regulated by the U.S. Army Corps of Engineers under section 404 of the Federal Clean Water Act.

Section 6
Regulated Activities to be Licensed

- 6.1 No person shall conduct or maintain a regulated activity without first obtaining a permit for such activity from the Inland Wetlands and Watercourses Commission of the Town of Salisbury.
- 6.2 Any person found to be conducting or maintaining a regulated activity without the prior authorization of the Agency, or violating any other provision of these regulations, shall be subject to the enforcement proceedings and penalties prescribed in section 14 of these regulations and any other remedies as provided by law.

Section 7
Permit Application Requirements

- 489
490
491
492 7.1 Any person intending to conduct a regulated activity or to renew or amend a permit to conduct
493 such activity, shall apply for a permit using a form provided by the Agency. The application shall
494 contain the information described in this section and any other information the Agency may reasonably
495 require. Application shall be made in electronic form through the Land Use Office.
496
- 497 7.2 If an application to the Town of Salisbury Planning, Zoning, or Planning and Zoning Commission
498 for subdivision or resubdivision of land containing a wetland or watercourse, the applicant shall, in
499 accordance with Section 8-3(g), 8-3c, or 8-26, as applicable, of the Connecticut General Statutes,
500 submit an application for a permit to the Agency in accordance with this section, no later than the
501 day the application is filed with such planning, zoning, or planning and zoning commission.
502
- 503 7.3 The application shall contain such information as is necessary for a fair and informed
504 determination thereon by the Agency.
505
- 506 7.4 A prospective applicant may request the Agency to determine whether or not a proposed activity
507 involves a significant impact activity.
508
- 509 7.5 All applications shall include the following information in writing, or on maps or drawings:
510
- 511 a. the applicant's name, mailing address, and telephone number; if the applicant is a Limited Liability
512 Corporation or a Corporation the managing member's or responsible corporate officer's name,
513 mailing address, and telephone number
 - 514 b. the owner's name, mailing address and telephone number and written consent of the land
515 owner if the applicant is not the owner of the land upon which the subject activity is
516 proposed
 - 517 c. the applicant's interest in the land
 - 518 d. the geographical location of the land which is the subject of the proposed activity
 - 519 e. a description of the land in sufficient detail to allow identification of the inland wetlands and
520 watercourses
 - 521 i. the area(s) (in acres or square feet) of wetlands or watercourses to be disturbed, soil
522 type(s), and wetland vegetation;
 - 523 ii. the purpose and a description of the proposed activity and proposed erosion and
524 sedimentation controls and other management practices and
 - 525 iii. mitigation measures which may be considered as a condition of issuing a permit for
526 the proposed regulated activity including, but not limited to, measures to:
 - 527 (1) prevent or minimize pollution or other environmental damage,
 - 528 (2) maintain or enhance existing environmental quality, or
 - 529 (3) in the following order of priority: restore, enhance and create productive
530 wetland or watercourse resources;
 - 531
 - 532 f. alternative which would cause less or no environmental impact to wetlands or watercourses
533 and why the alternative as set forth in the application was chosen; all such alternatives shall
534 be diagramed on a site plan or drawing
535
 - 536 g. a site plan showing the proposed activity and existing and proposed conditions in relation to
537 wetlands and watercourses and identifying any further activities associated with, or reasonably
538 related to, the proposed regulated activity which are made inevitable by the proposed
539 regulated activity and which may have an impact on wetlands or watercourses
540

- 541 h. statement by the applicant that the applicant is familiar with all the information provided in
542 the application and is aware of the penalties for obtaining a permit through deception or
543 through inaccurate or misleading information
544
- 545 i. a completed DEEP reporting form; the Agency shall revise or correct the information provided
546 by the applicant and submit the form to the Commissioner of Environmental Protection in
547 accordance with section 22a-39-14 of the Regulations of Connecticut State Agencies
548
- 549 j. submission of the appropriate filing fee based on the fee schedule established in the Bylaws of the
550 Town of Salisbury Inland Wetlands & Watercourses Commission
551
- 552 7.6 At the discretion of the Agency or its agent, additional information, based on the nature and
553 anticipated effects of the activity, including but not limited to the following, may be required:
554
- 555 a. site plans for the proposed activity and the land which will be affected thereby which show existing
556 and proposed conditions, wetland and watercourse boundaries, established upland review area,
557 land contours, boundaries of land ownership, proposed alterations and uses of wetlands and
558 watercourses, and other pertinent features of the land and the proposed activity, prepared by a
559 professional engineer, land surveyor, architect or landscape architect licensed by the state, or by
560 such other qualified person;
561
- 562 b. engineering reports and analyses and additional drawings to fully describe the proposed
563 activity including any filling, excavation, drainage or hydraulic modifications to watercourses and
564 the proposed erosion and sedimentation control plan;
565
- 566 c. mapping of soil types consistent with the categories established by the National Cooperative
567 Soil Survey of the U.S. Natural Resources Conservation Service; the wetlands shall be
568 delineated in the field by a soil scientist and the soil scientist's field delineation shall be
569 depicted on the site plans;
570
- 571 d. authorization for the members and agents of the Agency to inspect the subject land, at reasonable
572 times, during the pendency of an application and for the life of the permit;
573
- 574 e. a description of the ecological communities and functions of the wetlands or watercourses involved
575 with the application and the effects of the proposed activity on these communities and
576 wetland functions;
577
- 578 f. a description of how the applicant will change, diminish, or enhance the ecological
579 communities and functions of the wetlands or watercourses involved in the application and
580 each alternative which would cause less or no environmental impact to wetlands or
581 watercourses, and a description of why each alternative considered was deemed neither
582 feasible nor prudent;
583
- 584 g. analysis of chemical or physical characteristics of any fill material; and
585
- 586 h. management practices and other measures designed to mitigate the impact of the proposed activity.
587
- 588 7.7 The applicant shall certify whether:
589
- 590 a. any portion of the property on which the regulated activity is proposed is located within 500
591 feet of the boundary of an adjoining municipality;
592

- 593 b. traffic attributable to the completed project on the site will use streets within the adjoining
594 municipality to enter or exit the site;
- 596 c. sewer or water drainage from the project site will flow through and impact the sewage or
597 drainage system within the adjoining municipality; or,
- 598
- 599 d. water run-off from the improved site will impact streets or other municipal or private
600 property within the adjoining municipality.
- 601
- 602 7.8 Supplemental application materials shall be submitted in hard copy and digital format. Two (2) hard
603 copies of all supplemental application materials shall be submitted to comprise a complete application
604 unless an applicant is otherwise directed, in writing, by the Agency or its agent.
- 605
- 606 7.9 Any application to renew or amend an existing permit shall be filed with the Agency in
607 accordance with section 8 of these regulations at least sixty-five (65) days prior to the expiration
608 date of the permit. Any application to renew or amend such an existing permit shall contain the
609 information required under section 7 of these regulations provided:
- 610
- 611 a. the application may incorporate the documentation and record of the prior application;
- 612 b. the application shall describe the extent of work completed at the time of filing and the
613 schedule for completing the activities authorized in the permit;
- 614 c. the application shall state the reason why the authorized activity was not initiated or completed
615 within the time specified in the permit;
- 616 d. the application shall describe any changes in facts or circumstances involved with or affecting
617 wetlands or watercourses or use of the land for which the permit was issued;
- 618 e. the Agency may, prior to the expiration of a permit, accept an untimely application to renew
619 such permit if the authorized activity is ongoing and allow the continuation of work beyond
620 the expiration date if, in its judgment, the permit is likely to be renewed and the public
621 interest or environment will be best served by not interrupting the activity;
- 622
- 623 7.10 Any application to renew a permit shall be granted upon request of the permit holder unless the Agency
624 finds that there has been a substantial change in circumstances which requires a new permit
625 application or an enforcement action has been undertaken with regard to the regulated activity for
626 which the permit was issued provided no permit may be valid for more than ten years, except as
627 provided in Section 11 of these Regulations and Connecticut General Statutes Section 22a-42a(g).
628

629 **Section 8**
630 **Application Procedures**

- 631 8.1 All petitions, applications, requests or appeals shall be submitted to the Inland Wetlands and
632 Watercourses Commission of the Town of Salisbury.
633
634
- 635 8.2 The Agency shall, in accordance with Connecticut General Statutes section 8-7d(f), notify the
636 clerk of any adjoining municipality of the pendency of any application, petition, appeal, request or
637 plan concerning any project on any site in which:
638
- 639 a. any portion of the property affected by a decision of the agency is within five hundred feet of
640 the boundary of an adjoining municipality;
 - 641 b. a significant portion of the traffic to the completed project on the site will use streets within
642 the adjoining municipality to enter or exit the site;
 - 643 c. a significant portion of the sewer or water drainage from the project on the site will flow
644 through and significantly impact the drainage or sewerage system within the adjoining
645 municipality; or
 - 646 d. water run-off from the improved site will impact streets or other municipal or private
647 property within the adjoining municipality.
648
- 649 Such notice shall be made by certified mail, return receipt requested, and shall be mailed within seven
650 days of the date of receipt of the application, petition, appeal, request or plan.
651
- 652 8.3 When an application is filed to conduct or cause to be conducted a regulated activity upon an
653 inland wetland or watercourse, any portion of which is within the watershed of a water company
654 as defined in section 16-1 of the Connecticut General Statutes, the applicant shall provide written
655 notice of the application to the water company provided such water company has filed a map
656 showing the boundaries of the watershed on the land records of the municipality in which the
657 application is made and with the inland wetlands agency of such municipality. Such notice shall
658 be made by certified mail, return receipt requested, and shall be mailed within seven days of the
659 date of the application. The water company, through a representative, may appear and be heard at any
660 hearing on the application. Documentation of such notice shall be provided to the Agency.
661
- 662 8.4 The date of receipt of a petition, application, request or appeal shall be the day of the next
663 regularly scheduled meeting of the Agency, immediately following the day of submission to the
664 Agency or its agent of such petition, application, request or appeal or thirty-five days after such
665 submission, whichever is sooner.
666
- 667 8.5 At any time during the review period, the applicant shall provide such additional information as
668 the Agency may reasonably require. Requests for such additional information shall not stay the
669 time limitations as set forth in subsection 11.2 of these regulations.
670
- 671 8.6 All applications shall be open for public inspection.
672
- 673 8.7 Incomplete applications may be denied.

700
701
702
703
704
705
- 9.1 The inland wetlands agency shall not hold a public hearing on an application unless the inland wetlands agency determines that the proposed activity may have a significant impact on wetlands or watercourses, a petition signed by at least twenty-five persons who are eighteen years of age or older and who reside in the municipality in which the regulated activity is proposed, requesting a hearing is filed with the inland wetlands agency not later than fourteen days after the date of receipt of such application, or the inland wetlands agency finds that a public hearing regarding such application would be in the public interest. The inland wetlands agency may issue a permit without a public hearing provided no petition provided for in this section is filed with the inland wetlands agency on or before the fourteenth day after the date of receipt of the application. Such hearing shall be held no later than sixty-five days after the receipt of such application. All applications and maps and documents relating thereto shall be open for public inspection. At such hearing any person or persons may appear and be heard.
- 9.2 Legal Notice in Newspaper - Notice of the public hearing shall be published by the Agency at least twice at intervals of not less than two days, the first not more than fifteen days and not fewer than ten days, and the last not less than two days before the date set for the hearing in a newspaper having a general circulation in each town where the affected wetland and watercourse is located.
- 9.3 Notice to Abutters - Upon the scheduling of a public hearing by the Commission, the applicant shall notify by certified mail all owners of property within 100 feet of the subject property including parcels separated from the subject property by a public street or other municipal property, at least seven (7) days in advance of the initial public hearing. The person who owns land shall be the owner indicated on the property tax map or on the last-completed grand list as of the date such notice is mailed. The notice shall include a brief description of the application along with the date, time, and location of the public hearing. At or before the public hearing the applicant shall submit to the Commission a list of all property owners notified, and certificates of mailing of the notices to each such property owner, as evidence of compliance with this requirement.

Section 10
Considerations for Decision

- 706
707
708
709 10.1 The Agency may consider the following in making its decision on an application:
710
711 a. The application and its supporting documentation
712 b. Reports from other agencies and commissions including but not limited to the Town of Salisbury:
713 1) Planning and Zoning Commission
714 2) Building Official
715 3) Town Sanitarian (Torrington Area Health District)
716 The Agency may also consider comments on any application from the Northwest
717 Conservation District, the Northwest Hills Council of Governments or other regional
718 organizations (i.e. Council of Elected Officials); agencies in adjacent municipalities which
719 may be affected by the proposed activity, or other technical agencies or organizations
720 which may undertake additional studies or investigations.
721 c. Non-receipt of comments from state agencies and commissions listed in subdivision 10.1b
722 and c above within the prescribed time shall neither delay nor prejudice the decision of the
723 Agency.
724 d. For an application for which a public hearing is held, public comments, evidence and
725 testimony.
726
727 10.2 Criteria for Decision. In carrying out the purposes and policies of sections 22a-36 to 22a-45, inclusive,
728 of the Connecticut General Statutes, including matters relating to regulating, licensing and
729 enforcing of the provisions thereof, the Agency shall take into consideration all relevant facts and
730 circumstances, including but not limited to:
731
732 a. the environmental impact of the proposed regulated activity on wetlands or watercourses;
733 b. the applicant's purpose for, and any feasible and prudent alternatives to, the proposed
734 regulated activity which alternatives would cause less or no environmental impact to wetlands
735 or watercourses.
736 c. the relationship between the short term and long term impacts of the proposed regulated
737 activity on wetlands or watercourses and the maintenance and enhancement of long-term
738 productivity of such wetlands or watercourses.
739 d. Irreversible and irretrievable loss of wetland or watercourse resources which would be caused
740 by the proposed regulated activity, including the extent to which such activity would
741 foreclose a future ability to protect, enhance or restore such resources, and any mitigation measures
742 which may be considered as a condition of issuing a permit for such activity including, but
743 not limited to, measures to (1) prevent or minimize pollution or other environmental damage, (2)
744 maintain or enhance existing environmental quality, or (3) in the following order of priority:
745 restore, enhance and create productive wetland or watercourse resources;
746 e. the character and degree of injury to, or interference with, safety, health or the reasonable use
747 of property which is caused or threatened by the proposed regulated activity; and
748 f. impacts of the proposed regulated activity on wetlands or watercourses outside the area for
749 which the activity is proposed and future activities associated with or reasonably related to,
750 the proposed regulated activity which are made inevitable by the proposed regulated activity
751 and which may have an impact on wetlands and watercourses.
752
753 10.3 In the case of an application which received a public hearing pursuant to a finding by the Agency
754 that the proposed activity may have a significant impact on wetlands or watercourses, a permit
755 shall not be issued unless the Agency finds on the basis of the record that a feasible and prudent
756 alternative does not exist. In making this finding the Agency shall consider the facts and circumstances
757 set forth in subsection 10.2 of this section. The finding and the reasons therefore shall be stated

758 on the record in writing.
759
760 10.4 In the case of an application which is denied on the basis of a finding that there may be feasible
761 and prudent alternatives to the proposed regulated activity which have less adverse impact on wetlands
762 or watercourses, the Agency shall propose on the record in writing the types of alternatives which
763 the applicant may investigate provided this subsection shall not be construed to shift the burden from
764 the applicant to prove that he is entitled to the permit or to present alternatives to the proposed
765 regulated activity.
766
768 10.5 For purposes of this section, (1) "wetlands and watercourses" includes aquatic, plant or animal
769 life and habitats in wetlands or watercourses, and (2) "habitats" means areas or environments in which
770 an organism or biological population normally lives or occurs.
771
772 10.6 A municipal inland wetlands agency shall not deny or condition an application for a regulated
773 activity in an area outside wetlands or watercourses on the basis of an impact or effect on aquatic,
774 plant, or animal life unless such activity will likely impact or affect the physical characteristics of such
775 wetlands or watercourses.
776
777 10.7 In reaching its decision on any application after a public hearing, the Agency shall base its
778 decision on the record of that hearing. Documentary evidence or other material not in the hearing
779 record shall not be considered by the Agency in its decision.

Section 11
Decision Process and Permit

- 11.1 The Agency, or its duly authorized agent acting pursuant to Section 12 of these regulations, may, in accordance with Section 10 of these regulations, grant the application as filed or grant it upon other terms, conditions, limitations or modifications of the regulated activity designed to carry out the purposes and policies of the Act, or deny the application. Such terms may include any reasonable measures which would mitigate the impacts of the regulated activity and which would:
- prevent or minimize pollution or other environmental damage,
 - maintain or enhance existing environmental quality, or
 - in the following order of priority: restore, enhance and create productive wetland or watercourse resources.
- Such terms may include restrictions as to the time of year in which a regulated activity may be conducted, provided the Agency or its agent, determines that such restrictions are necessary to carry out the policy of sections 22a-36 to 22a-45r inclusive, of the Connecticut General Statutes.
- 11.2 No later than sixty-five (65) days after receipt of an application, the Agency may hold a public hearing on such application. At such hearing any person or persons may appear and be heard and may be represented by agent or attorney. The hearing shall be completed within thirty-five (35) days of its commencement. Action shall be taken on applications within thirty-five (35) days after completion of a public hearing. In the absence of a public hearing, action shall be taken on applications within sixty-five (65) days from the date of receipt of the application. The applicant may consent to one or more extensions of the periods specified in this subsection, provided the total extension of all such periods shall not be for longer than sixty-five (65) days, or may withdraw the application. The failure of the Agency to act within any time period specified in this subsection, or any extension thereof, shall not be deemed to constitute approval of the application. An application deemed incomplete by the Agency shall be withdrawn by the applicant or denied by the Agency.
- 11.3 The Agency shall state upon its record the reasons and bases for its decision.
- 11.4 The Agency shall notify the applicant and any person entitled to such notice of its decision within fifteen (15) days of the date of the decision by certified mail, return receipt requested, and the Agency shall cause notice of its order in the issuance or denial of the permit, to be published in a newspaper having general circulation in the town wherein the inland wetland or watercourse lies. In any case in which such notice is not published within such fifteen day period, the applicant may provide for the publication of such notice within ten days thereafter.
- 11.5 If an activity authorized by an inland wetland permit also involves an activity which requires a zoning or subdivision approval, special zoning permit, or variance or special exception, under sections 8-3(g), 8-3c, or 8-26 of the Connecticut General Statutes, the Agency shall file a copy of the decision and report on the application with the Town of Salisbury Planning and Zoning Commission within fifteen days of the date of the decision thereon.

~~11.6 Any permit issued by the Agency for the development of property land for which an approval is required under chapters 124, 124b, 126 or 126a ~~section 8-3, 8-25 or 8-26~~ of the Connecticut General Statutes shall (i) not take effect until each such approval, as applicable, granted under such chapter has taken effect, and (ii) be valid until the approval granted under such chapter expires or for ten years, whichever is earlier, shall be valid for five years provided the Agency may establish a specific time period within which any regulated activity shall be conducted. Any permit issued by the Agency for any other activity shall be valid for not less than two years and not more than five years.~~

833
834 11.7 Notwithstanding the provisions of Regulation 11.6 above, any permit issued prior to July 1, 2011, that
835 has not expired prior to July 12, 2021, shall expire not less than fourteen years after the date of such
836 approval. Any such permit shall be renewed upon request of the permit holder unless the agency finds
837 that there has been a substantial change in circumstances that requires a new permit application or an
838 enforcement action has been undertaken with regard to the regulated activity for which the permit was
839 issued, provided no such permit shall be valid for more than nineteen years.
840
841
842 11.8 Notwithstanding the provisions of Regulation 11.6 and 11.7 above, any permit issued on or after July 1,
843 2011, but prior to June 10, 2021, that did not expire prior to March 10, 2020, shall expire not less than
844 fourteen years after the date of such approval. Any such permit shall be renewed upon request of the
845 permit holder unless the agency finds that there has been a substantial change in circumstances that
846 requires a new permit application or an enforcement action has been undertaken with regard to the
847 regulated activity for which the permit was issued, provided no such permit shall be valid for more than
848 nineteen years.
849 ~~11.6~~
850
851 ~~11.7~~11.9 No permit issued by the Agency shall be assigned or transferred without the written permission
852 of the Agency.
853
854 ~~11.8~~11.10 If a bond or insurance is required in accordance with section 13 of these regulations, the Agency
855 may withhold issuing the permit until such bond or insurance is provided.
856
857 ~~11.9~~11.11 General provisions in the issuance of all permits:
858
859 a. All permits issued by the Agency are subject to and do not derogate any present or future
860 rights or powers of the Agency or the Town of Salisbury and convey no rights in real estate or
861 material nor any exclusive privileges, and are further subject to any and all public and
862 private rights and to any federal, state, and municipal laws or regulations pertinent to the
863 subject land or activity.
864 b. If the activity authorized by the Agency's permit also involves an activity which requires
865 zoning or subdivision approval, special permit, variance or special exception under sections 8.3(g),
866 8-3c, or 8-26 of the Connecticut General Statutes, no work pursuant to the wetland permit may
867 begin until such approval is obtained.
868 c. In constructing the authorized activities, the permittee shall implement such management practices
869 consistent with the terms and conditions of the permit as needed to control storm water
870 discharges and to prevent erosion and sedimentation and to otherwise prevent pollution of
871 wetlands and watercourses.
872 ~~d.~~ Permits are not transferable without the prior written consent of the Agency.
873 ~~e.~~ The permittee shall notify the Salisbury Inland Wetlands Agent immediately upon the
874 commencement of work and its completion. A pre-construction meeting with the contractor and the
875 Agent is required.
876 ~~f.~~ All work and all regulated activities conducted pursuant to this authorization shall be consistent
877 with the terms and conditions of this permit. Any structures, excavation, fill, obstructions,
878 encroachments, or regulated activities not specifically identified and authorized herein shall
879 constitute a violation of this permit and may result in its modification, suspension or revocation.
880 ~~g.~~ In evaluating an application, the Commission and their Agent rely on the information provided by
881 the applicant. If such information is subsequently proven to be false, incomplete or misleading, this
882 permit may be modified, suspended, or revoked and the permittee may be subject to any other
883 remedies or penalties provided by law.
884 ~~h.~~ The permittee shall employ the practices as outlined in the 2002 CT E & S Guidelines, March 2002

885 edition and amendments, consistent with the terms and condition of this permit, to control storm
886 water discharges and to prevent erosion and sedimentation and to otherwise prevent pollution of
887 wetlands or watercourses.
888 i. The permittee shall immediately inform the Agent of any problems involving the wetlands or
889 watercourses that have developed or are caused by the authorized work.
890 j. No equipment or material including without limitation, fill construction materials or debris shall be
891 deposited, placed or stored in any wetland or watercourse on the site except as authorized by this
892 permit.
893 k. This authorization is subject to and does not derogate any rights and powers of the Town of
894 Salisbury, conveys no property rights or exclusive privileges, and is subject to all public and
895 private rights and to all applicable federal, state and local laws. In conducting and maintaining any
896 activities authorized herein, the permittee may not cause pollution, impairment or destruction of the
897 wetlands and watercourses.
898 l. If the activity authorized also involves activity or a project that requires zoning or subdivision
899 approval, special permit, variance, or special exception, no work pursuant to the wetlands permit
900 may begin until such approval is obtained.
901 m. The permittee shall maintain sediment and erosion controls at the site in such an operable condition
902 as to prevent the pollution of wetlands and watercourses. Said controls are to be inspected by the
903 permittee for deficiencies at least once per week and immediately after rain events. The permittee
904 shall correct any such deficiencies within 24 hours of said deficiency being found. The permittee
905 shall maintain such control measures until all areas of disturbed soils, at the site, are stabilized.
906 n. Erosion and sediment controls must be installed and inspected prior to construction.
907 ~~o.~~ The site must be stabilized within 30 days of completing any ground disturbance.

Section 12
Action by Duly Authorized Agent

- 12.1 The Agency may delegate to its duly authorized agent the authority to approve or extend a license for an activity that is not located in a wetland or watercourse when such agent finds that the conduct of such activity would result in no greater than a minimal impact on any wetlands or watercourses provided such agent has completed the comprehensive training program developed by the Commissioner of Energy and Environmental Protection pursuant to section 22a-39 of the Connecticut General Statutes. Requests for such approval shall be made on a form provided by the Agency and shall contain the information listed under Section 7.5 of these regulations and any other information the Agency may reasonably require. Notwithstanding the provisions for receipt and processing applications prescribed in Sections 8, 9 and 11 of these regulations, such agent may approve or extend such an activity at any time.
- 12.2 Any person receiving such approval from such agent shall, within ten days of the date of such approval, publish, at the applicant's expense, notice of the approval in a newspaper having a general circulation in the town wherein the activity is located or will have an effect. Any person may appeal such decision of such agent to the Agency within fifteen days after the publication date of the notice and the Agency shall consider such appeal at its next regularly scheduled meeting provided such meeting is no earlier than three business days after receipt by such Agency or its agent of such appeal. Any person may appear and be heard at the meeting held by the Agency to consider the subject appeal. The Agency shall, at its discretion, sustain, alter, or reject the decision of its agent or require an application for a permit in accordance with Section 7 of these regulations.

Section 13
Bond and Insurance

- 13.1 The Agency may require as a permit condition the filing of a bond with such surety in such amount and in a form approved by the Agency.
- 13.2 The bond or surety shall be conditioned on compliance with the provisions of these regulations and the terms, conditions and limitations established in the permit.
- 13.3 Upon completion of all or part of the work guaranteed by such bond, the person posting a financial guarantee may request a release of all or a portion of such financial guarantee. The commission or its agent shall, not later than ~~thirtysixty~~ thirty-five days after receiving such request,
- (A) release or authorize the release of any such financial guarantee or portion thereof, provided the commission or its agent is reasonably satisfied that the site improvements for which such financial guarantee or portion thereof was posted have been completed, or
 - (B) provide the person posting such financial guarantee with a written explanation as to the additional site improvements that must be completed before such financial guarantee or portion thereof may be released.

Section 14
Enforcement

- 953
954
955
- 956 14.1 The Agency may appoint an agent or agents to act on its behalf with the authority to issue notices
957 of violation or cease and desist orders and carry out other actions or investigations necessary for
958 the enforcement of these regulations. In carrying out the purposes of this section, the Agency or its
959 duly authorized agent shall take into consideration the criteria for decision under section 10.2 of
960 these regulations.
961
- 962 14.2 The Agency or its agent may make regular inspections at reasonable hours of all regulated activities for
963 which permits have been issued with the consent of the property owner or the authorized agent of the
964 owner during the life of the permit.
965
- 966 14.3 In the case in which a permit has not been issued or a permit has expired, the Agency or its agent
967 may make regular inspections at reasonable hours with the consent of the property owner or the
968 authorized agent of the property owner.
969
- 970 14.4 If the Agency or its duly authorized agent finds that any person is conducting or maintaining any
971 activity, facility or condition which is in violation of the Act or these regulations, the Agency or its
972 duly authorized agent may:
- 973
- 974 a. issue a written order by certified mail, return receipt requested, to such person conducting
975 such activity or maintaining such facility or condition to immediately cease such activity or to
976 correct such facility or condition. Within ten (10) calendar days of the issuance of such order
977 the Agency shall hold a hearing to provide the person an opportunity to be heard and show
978 cause why the order should not remain in effect. The Agency shall consider the facts
979 presented at the hearing and within ten (10) days of the completion of the hearing notify the person
980 by certified mail that the original order remains in effect, that a revised order is in effect, or
981 that the order has been withdrawn. The Agency shall publish notice of its decision in a
982 newspaper having general circulation in the municipality. The original order shall be effective
983 upon issuance and shall remain in effect until the Agency affirms, revises or withdraws the
984 order. The issuance of an order pursuant to this subsection shall not delay or bar an action
985 pursuant to section 22a-44(b) of the Connecticut General Statutes, as amended.
986
- 987 b. issue a notice of violation to such person conducting such activity or maintaining such facility
988 or condition, stating the nature of the violation, the jurisdiction of the Agency, and
989 prescribing the necessary action and steps to correct the violation including, without
990 limitation, halting work in wetlands or watercourses. The Agency may request that the
991 individual appear at the next regularly scheduled meeting of the Agency to discuss the
992 unauthorized activity, and/or provide a written reply to the notice or file an application for the
993 necessary permit. Failure to carry out the action(s) directed in a notice of violation may result in
994 issuance of the order provided in section 14.4(a) or other enforcement proceedings as
995 provided by law.
996
- 997 14.5 The Agency may suspend or revoke a permit if it finds that the permittee has not complied with
998 the terms, conditions or limitations set forth in the permit or has exceeded the scope of the work
999 as set forth in the application including application plans. Prior to revoking or suspending any
1000 permit, the Agency shall issue notice to the permittee, personally or by certified mail, return
1001 receipt requested, to the address on file with the Tax Assessor's Office, setting forth the facts or
1002 conduct which warrants the intended action. The Agency shall hold a hearing to provide the
1003 permittee an opportunity to show that it is in compliance with its permit and any and all
1004 requirements for retention of the permit. The permittee shall be notified of the Agency's decision to

1005 suspend, revoke, or maintain a permit by certified mail within fifteen (15) days of the date of its
1006 decision. The Agency shall publish notice of the suspension or revocation in a newspaper having
1007 general circulation in the municipality.

**Section 15
Amendments**

- 15.1 These regulations and the Inland Wetlands and Watercourses Map for the Town of Salisbury may be amended, from time to time, by the Agency in accordance with changes in the Connecticut General Statutes or regulations of the Connecticut Department of Energy and Environmental Protection, or as new information regarding soils and inland wetlands and watercourses becomes available.
- 15.2 An application filed with the Agency which is in conformance with the applicable inland wetlands regulations as of the date of the receipt of such application shall not be required thereafter to comply with any change in inland wetland regulations, including changes to setbacks and buffers, taking effect on or after the date of such receipt and any appeal from the decision of such Agency with respect to such application shall not be dismissed by the Superior Court on the grounds that such a change has taken effect on or after the date of such receipt. The provisions of this section shall not be construed to apply
- (1) to the establishment, amendment or change of boundaries of inland wetlands or watercourses or
 - (2) to any change in regulations necessary to make such regulations consistent with the provisions of the Act as of the date of such receipt.
- 15.3 These regulations and the Town of Salisbury Inland Wetlands and Watercourses Map shall be amended in the manner specified in section 22a-42a of the Connecticut General Statutes, as amended. The Agency shall provide the Commissioner of Energy and Environmental Protection with a copy of any proposed regulations and notice of the public hearing to consider any proposed regulations or amendments thereto, except map amendments, at least thirty-five days before the public hearing on their adoption.
- 15.4 Petitions requesting changes or amendments to the "Inland Wetlands and Watercourses Map, Salisbury, Connecticut, shall contain at least the following information:
- a. the petitioner's name, mailing address and telephone number;
 - b. the address, or location, of the land affected by the petition;
 - c. the petitioner's interest in the land affected by the petition
 - d. map(s) showing the geographic location of the land affected by the petition and the existing and the proposed wetland(s) and watercourse(s) boundaries on such land in accurate detail together with the documentation supporting such proposed boundary locations; and
 - e. the reasons for the requested action.
- 15.5 Any person who submits a petition to amend the Inland Wetlands and Watercourses Map, Salisbury, Connecticut, shall bear the burden of proof for all requested map amendments. Such proof may include, but is not limited to, professional interpretation of aerial photography and remote sensing imagery, resource mapping, soils mapping, or other information acceptable to the Agency. If such person is the owner, developer or contract purchaser of the land which is the subject of the petition, or if such person is representing the interests of such an owner, developer or purchaser, in addition to the information required in subsection 15.4, the petition shall include:
- a. the name, mailing address and telephone number of the owner(s) of such land and owner(s) agent or other representative;
 - b. the names and mailing addresses of the owners of abutting land;
 - c. documentation by a soil scientist of the distribution of wetland soils on said land. Such documentation shall at a minimum include the report of the soil scientist documenting the location of wetland soils on the land and a map of the said land indicating the flag locations set by the

1061 soil scientist and defining the boundaries of wetland soil types; and
1062 d. map(s) showing any proposed development of the land in relation to existing and proposed wetland
1063 and watercourse boundaries.
1064
1065 15.6 Watercourses shall be delineated by a soil scientist, geologist, ecologist or other qualified
1066 individual.
1067
1068 15.7 A public hearing shall be held on petitions to amend the Inland Wetlands and Watercourses Map.
1069 Notice of the hearing shall be published in a newspaper having a general circulation in the
1070 municipality where the land that is the subject of the hearing is located at least twice at intervals of
1071 not less than two days, the first not more than fifteen days, nor less than ten days, and the last not
1072 less than two days before the date set for the hearing. All materials including maps and
1073 documents relating to the petition shall be open for public inspection.
1074
1075 15.8 The agency shall hold a public hearing on a petition to amend the regulations and the Inland
1076 Wetlands and Watercourses Map within sixty-five days after receipt of such petition. The hearing
1077 shall be completed within thirty-five days after commencement. The agency shall act upon the
1078 changes requested in such petition within sixty-five days after completion of such hearing. At
1079 such hearing, any person or persons may appear and be heard and may be represented by agent
1080 or attorney. The petitioner may consent to one or more extensions of any period specified in this
1081 subsection, provided the total extension of all such periods shall not be for longer than sixty-five days,
1082 or may withdraw such petition. Failure of the agency to act within any time period specified in
1083 this subsection or any extension thereof, shall not be deemed to constitute approval of the petition.
1084
1085 15.9 The Agency shall make its decision and state, in writing, the reasons why the change in the Inland
1086 Wetlands and Watercourses Map was made.

Section 17
Conflict and Severance

- 17.1 If there is a conflict among the provisions of these regulations, the provision which imposes the most stringent standards for the use of wetlands and watercourses shall govern. The invalidity of any word, clause, sentence, section, part, subsection, subdivision or provision of these regulations shall not affect the validity of any other part which can be given effect without such invalid part or parts.
- 17.2 If there is a conflict between the provisions of these regulations and the provisions of the Act, the provisions of the Act shall govern.

Section 19
Fees

- 19.1 Method of Payment. All application fees required by these regulations shall be submitted to the Agency by check ~~or credit card~~ payable to the Town of Salisbury at the time the application is filed with the Agency.
- 19.2 No application shall be granted or approved by the Agency unless the correct application fee is paid in full or unless a waiver has been granted by the Agency pursuant to subsection 19.7 of these regulations.
- 19.3 The application fee is not refundable.
- 19.4 Definitions. As used in this section:
- "Residential Uses" means activities carried out on property developed for permanent housing or being developed to be occupied by permanent housing.
- "Commercial uses" means activities carried out on property developed for industry, commerce, trade, recreation, or business or being developed to be occupied for such purposes, for profit or nonprofit
- 19.5 Fee Schedule. In accordance with C.G.S. Sec. 22a-42a(e), the Inland Wetlands & Watercourses Commission may require a filing fee to be deposited with the agency. The amount of such fee shall be sufficient to cover the reasonable cost of reviewing and acting on applications and petitions, including, but not limit to, the costs of certified mailing, publications of notices and decisions and monitoring compliance with permit conditions or agency orders.
- a. Complex Application Fee. The Inland Wetlands Agency may charge an additional fee sufficient to cover the cost of reviewing and acting on complex applications. Such fee may include, but not be limited to, the cost of retaining experts to analyze, review, and report on issues requiring such experts. The Agency or the duly authorized agent shall estimate the complex application fee which shall be submitted to the Agency by check payable to the Town of Salisbury. Any portion of the complex application fee in excess of the actual cost shall be refunded to the applicant no later than 30 days after publication of the agency's decision.
- b. Monitoring Compliance Fee and/or Permit Compliance Fee. The Inland Wetlands Agency may charge an additional fee sufficient to cover the cost of monitoring and compliance. The applicant/landowner/contractor shall submit a check payable to the Town of Salisbury in the amount determined by consultant(s) to cover the Agency or Agents costs in monitoring compliance. Any portion of the monitoring compliance fee in excess of the actual cost shall be refunded to the applicant.
- 19.6 Fee Waiver. The applicant may petition the Agency to waive, reduce, or allow delayed payment of the fee. Such petitions shall be in writing and shall state fully the facts and circumstances the Agency should consider in its determination under this subsection. The Agency may waive all or part of the application fee if the Agency determines that:
- a. The activity applied for would clearly result in a substantial public benefit to the environment or to the public health and safety and the applicant would reasonably be deterred from initiating the activity solely or primarily as a result of the amount of the application fee, or
- b. The amount of the application fee is clearly excessive in relation to the cost to the Town for

1174 reviewing and processing the application.

1175

1176 c. The applicant has shown good cause.

1177

1178 The Agency shall state on the record the basis for all actions under this subsection.

1179

1180 19.7 Exemption. Boards, commissions, councils and departments of the Town of Salisbury are exempt from
1181 all fee requirements.

Section 20
Effective Date of Regulations

20.1 These regulations are effective upon filing in the Office of the Town Clerk and publication of a notice of such filing in a newspaper having general circulation in the Town of Salisbury.

Appendix A
Connecticut General Statute section 1-1(q)

For informational purposes only. For the language of the Statute currently in effect, consult the most recent version of the Connecticut General Statutes.

Except as otherwise specifically defined, the words "agriculture" and "farming" shall include cultivation of the soil, dairying, forestry, raising or harvesting any agricultural or horticultural commodity, including the raising, shearing, feeding, caring for, training and management of livestock, including horses, bees, poultry, fur-bearing animals and wildlife, and the raising or harvesting of oysters, clams, mussels, other molluscan shellfish or fish; the operation, management, conservation, improvement or maintenance of a farm and its buildings, tools and equipment, or salvaging timber or cleared land of brush or other debris left by storm, as an incident to such farming operations; the production or harvesting of maple syrup or maple sugar, or any agricultural commodity, including lumber, as an incident to ordinary farming operations or the harvesting of mushrooms, the hatching of poultry, or the construction, operation or maintenance of ditches, canals, reservoirs or waterways used exclusively for farming purposes; handling, planting, drying, packing, packaging, processing, freezing, grading, storing or delivering to storage or to market, or to a carrier for transportation to market, or for direct sale any agricultural or horticultural commodity as an incident to ordinary farming operations, or, in the case of fruits and vegetables, as an incident to the preparation of such fruits or vegetables for market or for direct sale. The term "farm" includes farm buildings, and accessory buildings thereto, nurseries, orchards, ranges, greenhouses, hoopouses and other temporary structures or other structures used primarily for the raising and, as an incident to ordinary farming operations, the sale of agricultural or horticultural commodities. The term "aquaculture" means the farming of the waters of the state and tidal wetlands and the production of protein food, including fish, oysters, clams, mussels and other molluscan shellfish, on leased, franchised and public underwater farm lands. Nothing herein shall restrict the power of a local zoning authority under chapter 124.

Appendix B
Connecticut General Statutes § 8-7d (a) - § 8-7d (c)

For informational purposes only. For the language of the Statute currently in effect, consult the most recent version of the Connecticut General Statutes.

Sec. 8-7d. Hearings and decisions. Time limits. Day of receipt. Notice to adjoining municipality. Public notice registry. (a) In all matters wherein a formal petition, application, request or appeal must be submitted to a zoning commission, planning and zoning commission or zoning board of appeals under this chapter, a planning commission under chapter 126 or an inland wetlands agency under chapter 440 or an aquifer protection agency under chapter 446i and a hearing is required or otherwise held on such petition, application, request or appeal, such hearing shall commence within sixty-five days after receipt of such petition, application, request or appeal and shall be completed within thirty-five days after such hearing commences, unless a shorter period of time is required under this chapter, chapter 126, chapter 440 or chapter 446i. Notice of the hearing shall be published in a newspaper having a general circulation in such municipality where the land that is the subject of the hearing is located at least twice, at intervals of not less than two days, the first not more than fifteen days or less than ten days and the last not less than two days before the date set for the hearing. In addition to such notice, such commission, board or agency may, by regulation, provide for additional notice. Such regulations shall include provisions that the notice be mailed to persons who own land that is adjacent to the land that is the subject of the hearing or be provided by posting a sign on the land that is the subject of the hearing, or both. For purposes of such additional notice, (1) proof of mailing shall be evidenced by a certificate of mailing, (2) the person who owns land shall be the owner indicated on the property tax map or on the last-completed grand list as of the date such notice is mailed, and (3) a title search or any other additional method of identifying persons who own land that is adjacent to the land that is the subject of the hearing shall not be required. All applications and maps and documents relating thereto shall be open for public inspection. At such hearing, any person or persons may appear and be heard and may be represented by agent or by attorney. All decisions on such matters shall be rendered not later than sixty-five days after completion of such hearing, unless a shorter period of time is required under this chapter, chapter 126, chapter 440 or chapter 446i. The petitioner or applicant may consent to one or more extensions of any period specified in this subsection, provided the total extension of all such periods shall not be for longer than sixty-five days, or may withdraw such petition, application, request or appeal.

(b) Notwithstanding the provisions of subsection (a) of this section, whenever the approval of a site plan is the only requirement to be met or remaining to be met under the zoning regulations for any building, use or structure, a decision on an application for approval of such site plan shall be rendered not later than sixty-five days after receipt of such site plan. Whenever a decision is to be made on an application for subdivision approval under chapter 126 on which no hearing is held, such decision shall be rendered not later than sixty-five days after receipt of such application. Whenever a decision is to be made on an inland wetlands and watercourses application under chapter 440 on which no hearing is held, such decision shall be rendered not later than sixty-five days after receipt of such application. Whenever a decision is to be made on an aquifer protection area application under chapter 446i on which no hearing is held, such decision shall be rendered not later than sixty-five days after receipt of such application. The applicant may consent to one or more extensions of such period, provided the total period of any such extension or extensions shall not exceed sixty-five days or may withdraw such plan or application.

(c) For purposes of subsection (a) or (b) of this section and section 7-246a, the date of receipt of a petition, application, request or appeal shall be the day of the next regularly scheduled meeting of such commission, board or agency, immediately following the day of submission to such commission, board or agency or its agent of such petition, application, request or appeal or thirty-five days after such submission, whichever is sooner. If the commission, board or agency does not maintain an office with regular office hours, the office of the clerk of the municipality shall act as the agent of such commission, board or agency for the receipt of any petition, application, request or appeal.
