RE: **Protective Bollards for Proposed EV Charger (COA # 2024-005)**

DATE: April 10, 2024

There will be two protective bollards installed beside the proposed EV charger. The bollards will be 4 inches in diameter and 3 feet tall, they will be concrete-filled and covered with a white sleeve. They will be positioned 4 – 6 feet apart from the center of each bollard.

See product sample to the right and estimated layout on the following page.

Specifications were informed by the Town of Salisbury Fire Marshal.

Estimated EV Charger and Bollard Layout
