

9 Sharon Road, LLC
9A Sharon Road Supplemental Information to COA
Salisbury HDC
May 13, 2025

The HVAC condensing unit is single unit.

The unit needs to be 12" off the ground and 48" of open space for air movement and ability to access for service.

The unit will stand approximately 72" tall once installed.

The unit is 42" wide.

Placing the unit to the west of the window (as indicated in the below photo) will provide for the most inconspicuous location and will meet manufacturer's specification regarding open space.
