Dr. Klemens and P&Z Commission:

How has this Wake Robin debacle continued to receive fuel from the P&Z Commission whose purpose is to represent the interest of the citizens of Salisbury who appear to be almost universally opposed to this invasive development?

No one wants more traffic and congestion in our town. No one wants to overburden the infrastructure of our community, which will undoubtedly result in additional tax burdens for all of us. And no one wants to destroy the bucolic quality of our historic town.

We bought our home in Lakeville in 2010. We chose this town over all others in Litchfield County and we chose an historic home dating back to 1763 because we relished owning a piece of historic America.

And now you're contemplating endorsing an invasive resort property in the middle of town. The prospect of this is disgraceful. Why would your commission act on behalf of an outside corporate interloper who does not represent the best interests of our citizens?
