To Whom It May Concern:

Mr. Riva asked at the 8/12 Public Hearing continuation if residents experienced and/or complained about blasting for the cell phone tower.

I can confirm that I experienced the blasting and was disturbed and frightened. I did not receive notification and I did not know it was blasting. I thought at first my furnace had exploded. After checking my basement, I checked the USGS website for earthquake notification. There was none.

I did not complain to the Town, because as we have established, the Town does not take action or enforce these sound problems.

Separately, a neighbor commented within the hearings that her level of concern had increased due to the blasting. I can provide a name and meeting date if this is needed.

Thank you,

Greg Wilmore
