To Land Use <landuse@salisburyct.us>

For all members of the Land Use and Zoning Committees.

It is Monday August 31, 2021 at 2:40 pm. There have been cars racing and drifting around the track since I returned home around 12: 30 pm. I can hear it from inside my home. I understand there is an Autocross Lapping Day Training Event.

It is now currently 5:00 pm and the screeching tires around the corners continues, as does the burning rubber smells drifting through my open windows when the wind shifts in my direction. While it is not as intense as the Grid Life Drifting Event, it is disruptive and invasive. I am now even more concerned as to the tracks ability to DO first, and argue later saying - "we have been doing it so we can continue doing it."

We are going backwards on the fact that the current track owners began unmuffled racing again with no repercussions, though it was put a stop to long ago. There was serious pushback from the locals over the past 5 years, but they would not concede. And they added regular drifting as well, because they gave us Sundays? They got their NASCAR Truck Race. Wasn't that enough? We all ready had Sundays! Lime Rock Citizens Council said no, but still had to negotiate instead? Why do we have to lawyer up and negotiate what has all ready been decided?

When I was able to watch the replay, because I could not attend, from August 17th Zoning Meeting, our lawyer said Zoning would most likely win. I don't see how you could lose. I am sorry I was not able to attend that live, but I certainly believed it would head in a different direction, after the July meeting.

This should not be happening. As they keep dragging out negotiations, they continue to break long standing agreements. Why exactly is Zoning not facing this head on? I do not understand. I am very confused, disillusioned, and disturbed.

Sincerely,

Elizabeth Conn
