

Lakeville Train Station relocation

From Michael Weissbrod <mweissbrod@crosskey.com>

Date Wed 8/19/2026 9:40 AM

To Curtis Rand <crand@salisburyct.us>

Good morning Curtis,

Per our previous discussions and as identified in our 2022 conditions assessment report, we believe the building's current location with close proximity to Etah Allen Street threatens the building's long-term preservation and poses a safety concern. The building has already been struck by multiple vehicles which have caused significant damage to the building. The building's location tight to paving at the bend in the road may also restrict sight-lines of drivers. We firmly believe relocation of the building is in the best interest of public safety and long-term preservation of the building.

Thanks,

Michael Weissbrod AIA
